Are you covered when you use an aircraft owned by someone else?

Did you know that there are approximately 7 pilots for every 1 airplane registered for general aviation use? Therefore, most general aviation pilots need to rent or borrow an airplane when they take to the sky. The owner's aircraft insurance policy protects the owner from his or her mistakes, but what about the pilot renting or borrowing the airplane? What happens if the owner's policy does not include coverage for "permissive pilots?" Or, what if the aircraft is underinsured or uninsured? You may be liable for the damages. So you need to ask yourself, "*Can I afford not to be insured?*"

AIG Aviation, Inc. is a leading general aviation insurance underwriter, and a member company of American International Group, Inc. AIG Aviation, Inc. offers a highly comprehensive non-owned liability and physical damage insurance coverage, backed by American International Group, Inc.'s excellent financial strength and claim service.
